# Technical Specifications:

1. SONY 1/3" Super HAD CCD II Image Sensor
2. Super High Resolution 600TVL
3. D-WDR (Digital Wide Dynamic Range)
4. 2D-DNR (Digital Noise Reduction)
5. Excellent Auto Tracking White-Balance
6. Excellent Color Rolling Suppression
7. Privacy Zone/Mirror
8. DPC (Dead Pixel Compensation) / Lens Shade

## OSD Basic Function

1. White Balance: ATW1/ATW2/AWC->SET/MANUAL
2. D-WDR: ON/OFF
3. AGC (Automatic Gain Control): With AGC Low/Middle/High/Off, the setting and camera sensitivity is automatically increased when the level of ambient light drops
4. 2D-DNR: The background noise in the low light level decreases automatically as the level of gain changes.
5. BLC (Backlight Compensation)/D-WDR: It will be used for facing the object to camera under the excessive light behind it.
